Saffron Walden Orchestral Society will only collect data where lawful and where it is necessary for the legitimate purposes of the group.

- A member's name and contact details will be collected when they first join the group, and will be used to contact the member regarding group membership administration and activities. Other data may also subsequently be collected in relation to their membership, including their payment history for 'subs'. Where possible Saffron Walden Orchestral Society will anonymise this data

- Lawful basis for processing this data: Contract (the collection and use of data is fair and reasonable in relation to Saffron Walden Orchestral Society completing tasks expected as part of working with the individuals),

When collecting data, Saffron Walden Orchestral Society will always provide a clear and specific privacy statement explaining to the subject why the data is required and what it will be used for.

c) We ensure any data collected is relevant and not excessive

Saffron Walden Orchestral Society will not collect or store more data than the minimum information required for its intended purpose.

E.g. we will need to collect telephone numbers from members in order to be able to contact them about group administration, but data on their marital status or sexuality will not be collected, since it is unnecessary and excessive for the purposes of group administration.

d) We ensure data is accurate and up-to-date

Saffron Walden Orchestral Society will ask members, volunteers and staff to check and update their data on an annual basis. Any individual will be able to update their data at any point by contacting the Data Protection Officer.

f) We keep personal data secure

Saffron Walden Orchestral Society will ensure that data held by us is kept secure.

- Electronically-held data will be held within a password-protected and secure environment
- Passwords for electronic data files will be re-set each time an individual with data access leaves their role/position

- Keys for locks securing physical data files should be collected by the Data Protection Officer from any individual with access if they leave their role/position. The codes on combination locks should be changed each time an individual with data access leaves their role/position
- Access to data will only be given to relevant trustees/committee members/contractors/fixers where it is clearly necessary for the running of the group. The Data Protection Officer will decide in what situations this is applicable and will keep a master list of who has access to data

g) Transfer to countries outside the EEA

Saffron Walden Orchestral Society will not transfer data to countries outside the European Economic Area (EEA), unless the country has adequate protection for the individual's data privacy rights.

We only share members' data with other members with the subject's prior consent

To facilitate this:

- Members can request the personal contact data of other members in writing via the Data Protection Officer or Membership Secretary. How we get consent

Saffron Walden Orchestral Society will regularly collect data from consenting supporters for marketing purposes. This includes contacting them to promote performances, updating them about group news, fundraising and other group activities.

Any time data is collected for this purpose, we will provide:

- A method for users to show their positive and active consent to receive these communications (e.g. a 'tick box')
- A clear and specific explanation of what the data will be used for (e.g. 'Tick this box if you would like Saffron Walden Orchestral Society to send you email updates with details about our forthcoming events, fundraising activities and opportunities to get involved')

Data collected will only ever be used in the way described and consented to (e.g. we will not use email data in order to market 3rd-party products unless this has been explicitly consented to).

Every marketing communication will contain a method through which a recipient can withdraw their consent (e.g. an 'unsubscribe' link in an email). Opt-out requests such as this will be processed within 14 days.

Saffron Walden Orchestral Society takes any breach of data seriously. A data breach could be the deliberate or accidental:

- Loss of data – e.g. not knowing where physical or digital data is stored or how to access it, including devices being lost or stolen.
- Destruction of data – both physical and digital
- Corruption of data – e.g. changing data without permission or good reason or changing it with permission or good reason but incorrectly, either by Saffron Walden Orchestral Society staff, volunteers or third parties
- Unauthorised use of data e.g. sending an email that requires consent where consent has not been given.
- Unauthorised access to data – e.g. an (unauthorised) third party gains access to data stored by Saffron Walden Orchestral Society
- Unauthorised disclosure of data – e.g. Saffron Walden Orchestral Society passing data to a third party where we do not have a lawful basis to do so.

Saffron Walden Orchestral Society acknowledges that a data breach can occur through both action and inaction on the part of the Data Controller or Processor.

How we prevent Data breaches

Saffron Walden Orchestral Society has the following safeguards to ensure against possible data breaches:

- Automatic, and manual, processes ensure passwords are updated on a regular basis, including as soon as an individual's role within, or relationship to, Saffron Walden Orchestral Society changes.
- Automatic, and manual, processes ensure mass communications are only sent in line with mailing preferences.

If a Data breaches occurs

If anyone associated with Saffron Walden Orchestral Society thinks a data breach has occurred then it should be reported to the trustees immediately.

The trustees will work with relevant individuals to investigate the potential breach. The response plan will include the following steps:

- Establish if a breach has occurred.
- Investigate if any measures can be taken to contain or minimise the breach.
- Establish the full extent and nature of that breach – including what the breach was, how many data subjects are affected and who they are.
- Establish if the data breach has, or is likely to, pose a significant risk to the data subjects rights and freedoms:
 - If the breach does pose a significant risk to the data subjects rights and freedoms we will:
 - Ensure all trustees are informed
 - Report the breach to the ICO. This will be done in-line with their guidelines and as soon as possible, but no later than 72 hours after the breach occurred

- Report the breach to any other relevant regulators, including the Charity Commission and OSCR.
- Report the breach to the data subjects affected, informing them of what has happened, possible and likely impacts it might have on them and what we are doing to manage the breach and reduce risk of future occurrences
- If the breach does not pose a significant risk to the data subjects rights and freedoms we will:
 - Document details of the breach and the decision making process involved in assessing the severity and risk of the breach.
 - Ensure the breach is reported to the Board of Trustees at the next planned full board meeting.

Conduct an internal investigation into how the breach happened and what measures need to be taken to minimise the risk of similar breaches occurring in the future.
